WorldCom offers **18 pre-engineered, managed Web hosting packages**, designed to meet your business's needs — no matter what they may be. With our ready-made solutions, your choice is easier, and your time to market faster. Looking for a customized solution? WorldCom can tailor a Web hosting strategy that can advance your Internet business goals.

WorldCom Managed Hosting Services are backed by the most diverse SLAs in the business. Because we own our network, we can be accountable to you, ready to ensure network availability. And we deliver the fastest speeds available over IP today, thanks to a network that includes **OC-12, OC-48, and OC-192** links!

Finally, you benefit from the support of WorldCom experts like Ambrose Hudson. People who are comfortable with technology. And who know how to make you comfortable with it, too.

WorldCom Managed Hosting Services. Brought to you by generation d. So you can get back to the business of running your business. Instead of your Web hosting.

With WorldCom, your managed hosting solution is embedded directly into our UUNETSM network — the most **expansive global network*** on the planet. Not just linked. Seamlessly embedded.

When you host with WorldCom, you'll leverage our investments in state-of-the-art technology and facilities — so you can focus on your business, instead of worrying about Web hosting.

Guests?

Is your Web site ready to receive a few million guests?

Let's face it... as your business moves more and more to the Internet, the performance, reliability, and security of your online presence means more than being a good host. It's a matter of business survival.

Does your organization have the integrated, powerful, robust Web hosting solution it needs to meet increasingly demanding and complex Web hosting requirements? That leverages the latest technology and the world's most expansive network?*

Look to WorldCom for the global Web hosting solution your business needs. No matter what its size or location. Or how many guests decide to drop in.

WorldCom Managed Hosting Services.
Perfect for the new generation.
